4) I am also of opinion that the import of Burma rice through merchants is not of any particular advantage to Govt.
5) All that Govt. are saved is the finding of funds & that only for a period of 2 to 4 weeks & for this accommodation the merchant gets 8 as per bag - Thus on an import of 1000 tons - which is equivalent to 10,000 pallas or about 14,000 bags - which costs roughly 1·80 lakhs, at the

rate of 18Rs per palla, the merchant imports the rice and hands it over to the Govt on arrival & has to be paid. It may take about a month from the time he buys the rice in Rangoon & delivers it in Bangalore or other place in the State. On this transaction he makes a profit of 7,000 Rs at 8as a bag.

6) Thus for the sake of 1·80 lakhs of rupees in a month Govt pays 7000 Rs or at the rate of nearly 4 per cent per month.

7) It would be another matter if the merchants imported on their own account & sold the rice themselves, but there are other difficulties in such an arrangement & it would be very difficult to keep down profiteering.

8) It seems to me that if Govt import rice whole of the rice themselves they can place it in the market on the cheapest terms.

9) However the Committee thought that a trial of both methods of import might be tried in May

As regards wheat, it was decided that no application need be made as Mysore merchants are not in favour of getting either Punjab wheat or Australian wheat, and also because of the fact that wheat flour and Souji are not controlled and are being freely imported.

Sir,

I have the honour to submit herewith a copy of a resolution of the Food Supplies Committee at its meeting held on the 15th instant in regard to the arrangements to be made for the import of Burma rice during May 1919. The letter from the Foodstuffs Commissioner (No. 1033 of the 11th instant) a copy of which was submitted to Government with my letter No. 7248 of the 21st idem) had not been received when the Committee met. In view of the difficulties which are likely to be experienced by merchants to whom licenses may be given in obtaining shipping space in time, I am in favour of all the Burma rice allotments which may be required to be imported into the State being obtained for Government through the medium of the Rice Commissioner, Rangoon. Very early orders in the matter are solicited as in ~~the~~ case of imports through merchants immediate action has to be taken for selecting the merchants.

Resolution No.7 of the Proceedings of the Food Supplies Committee at its meeting held on the 15th April 1919.

"As regards the arrangements to be made for the import of Burmah rice during May, it was resolved that 1,500 tons may be obtained through merchants and the rest by Government. Tenders may be called for to this extent giving the merchants clearly to understand that 2,500 tons allotment is expected to be got for the month and that in case the allotment obtained should be less, there would be a proportionate reduction in the quantity to be allowed to be imported by them. The accepted tenderer should take his chance of shipping when shipping space is made available for the purpose by the Rice Commissioner."

Dear Sir,

To above arrangements made—

Out of the original allotrent of 2,500 tons of Burma rice for the month of May 1,000 tons has already been disposed of by accepting the tender of Messrs. R. Papanna & Sons, Bangalore at Rs.19 per bag of 225 lbs. For the remaining 1,500 tons, tenders had been called for for the supply of 1,000 tons of whole rice and 500 tons of broken rice. The most favourable tender for whole rice is that of Messrs. R. Papanna and Sons at 18-6-0 per bag of 225 lbs. Big Mills special For broken rice the most favourable tender is that of Messrs. V. R. Rabiyuddin Saib of Robertsonpet at Rs.12-7-0 per bag of 205 lbs, C.3. But this is only for 300 tons. There is thus a balance of 200 tons out of the original allotment of 2,500 tons and the further allotment of 2,500 tons, making a total of 2,700 tons to be disposed of. I shall report to Government shortly as to how this is to be imported.
